L.A.C.C.E.I. Scholarship Application

LATIN AMERICAN AND CARIBBEAN CONSORTIUM OF ENGINEERING INSTITUTIONS

Scholarships for Latin American and Caribbean College of Science Students

Florida Atlantic University is a founding member of the Latin American and Caribbean Consortium of Engineering Institutions, and has established scholarships for international students who are citizens of Latin America and the Caribbean (excluding Puerto Rico and the U.S. Virgin Islands). These scholarships are extended to qualifying students in the College of Science. In order to qualify, students must be fully admissible to FAU under existing criteria for graduate programs and meet other standards:

- Complete FAU admissions form and pay its application fee prior to applying for this scholarship (see www.fau.edu/academic/gradstud/grad.htm)
- A minimum of 3.0 (out of 4.0) Grade Point Average (GPA).
- GRE and TOEFL scores required by the program to which student is applying
- Full time status is required (9 credits per semester for graduate students during the Fall and Spring semesters. 6 credits in the Summer semester OR if less credits, the appropriate full time status paperwork must be filed each semester).
- The applicant seeking a Master’s must be in the thesis option with the goal of continuing to pursue a PhD.

The award is an established scholarship that is offered on the basis of existing policies and guidelines, and the selection process is open and competitive. Details of the FAU-LACCEI scholarship are as follows:

- The College commits to financial support for the duration of the student’s degree program, as long as the student remains in full-time status and in good standing.
- A LACCEI Scholarship of $1,500 per year ($500 paid per semester).
- Student will be considered a Florida Resident for tuition purposes only, under the provisions of Section 1009.21 (10) (e) of the Florida Statutes.
